Council Corsidered Matter Last Night But Took No Action.

FIRE DEPARTMENT MATTER UP.

Like That of Sewers It Was Placed in Hands of Special Committee and Li ulod Will Be Acted Upon at Next Meeting of Body.

Three important matters were dis cussed by the Borough Council at its special meeting last night, and al though none of them were fluidly dis posed of they were gotten into such shape that action can be taken upon them as soon as the committees mak

then report

A full number-hip of Council was present to hear the reading of the te port of the State Board of Health regulating the laving of atture sow ers and the planning of a new sower system to sparate the storm water from the sewage and also for the disposal plant that is concemplated in all towns where sewage is dumped in to streams of the State. It took that minutes of impld reading to cover the report, and in conclusion it asked that the paper be placed on file and that within a year plans and specifications for a sewer system and disposal plant be prepared. The proposition was such a large one involving a large sum of money that the Council as a whole was agreeable to living the paper on the table for future consulcta-

One big question in connection with ing to the ideas lidd down and preparations for a disposal plant with plans attached be filled. The disposal plant would require considerable ground it is stated and the purchase of this would cort much money. But to the first place as sixted by Mr. Wallace the plans for the sewage system would mean an expenditure of upwards of \$30,000 to propare and this he considered an item. All the Councilmen agreed with him. All Act of the Legislatine does not allow a Borough to to increase their indebtedness 2 per cent A sewage system designed as Di Dixon has planned for the town it is toughly estimated while cost it the least \$100 000 and this is nise or from to be onsidered. the least \$100,000 and this is also in them to be obsidered. There was so much about the paper to be considered that the Council decided to by it over for further consideration.

WEDNESDAY EVE'G., NOV. 11, 1908.

FAYETTE COUNTY'S TAMMANY ORGANIZATION.

That particular branch of the Democratic party represented by the Unlontown Genius has announced the organization of the Fayette County Democratic League, with central headquarters in Uniontown and "local branches in every considerable con-ter of population," with "active work OUR FUTURE HOUSING ers in each election district of the county." The object of the League is decidedly interesting. It is stated

Conditions were entirely different in 1908. The country labored under a scribus immerial and industrial depressolutions introduced an industrial repres-sion following the money panle of last fall. Many working were out of employment and many of them are still felle. Bryar himself was again in the saiddle, making speeches all lover the county playing the role of the Margara Man. His addresses. the Magnetic Main. His adherents were shouting for Lim with enthusiasm and predicting a awcoping victory for the Peerless One. His platform held our extravagant promises to the labor vote and taken throughout was a pknstble prescription for the cyll times. It looked like a landstide that would sweep away every vestige of

Republican government In spite of all trease drawbacks hundings and disma' prospects, and purchularly in spite of the fact that in the history of pollties no party in power during a panic has ever succeeded in retaining its power at the suc ceeding election, the Republican party won handly. It the conditions in 1908 had been the same of similar to those of 1994. Tait's plarality would have been as great as Roosevelt's and perhaps greater; in fact, in some sections, especially where the effects of the depression had not been seriously
